

RESUL CAY

SOFTWARE DEVELOPER

SUMMARY

I am a software developer with 2+ years of experience in developing and implementing effective solutions to difficult technical issues. Capable of designing, implementing, and maintaining efficient, robust, and sustainable systems through a disciplined application of test-driven development (TDD) and other industry standards. Experienced in the use of various programming languages and frameworks. Team player, having a history of developing high-value software in the agile environment by fostering teamwork and effective communication. A self-developer, I always seek to enhance my skills and integrate new technologies to improve the application's performance, user interaction, and business productivity.

SKILLS

- Proficient in C#, .NET Core, ASP.NET Core, EF Core, and WebAPI, RestAPI, Soap.
- Good at database programming with SQL, MSSQL, and Firebase.
- Skilled in mobile development using Flutter, Dart, and Kotlin.
- Well-versed in web technologies: React, Angular, HTML, CSS, and JS.
- Experienced in VCS and CI/CD tools: Git, GitHub, and GitHub Actions.
- Familiar with architectural patterns including nTier, Clean Architecture, MVC, MVP, and MVVM.
- Solid understanding of SOLID principles and object-oriented programming (OOP).
- Knowledgeable in design patterns such as Repository, Iterator, and Observer.
- Strong at Google Cloud usage and Implementations : Cloud Storage API, Vision API and Video Intelligence

WORK EXPERIENCE

Full Stack Software Developer 2024-2025

Veri Marka Brand Registration and Consultancy

- Significant updates and important changes were released for an app with +22k users (MacYap)
 - Launched a social media and real-time messaging module utilizing Google Cloud Services and SignalR sockets.
